

Key Facts

Date: October 10 –12, 2025

Location: Neues Schloss, Stuttgart, Germany

Annual Theme: Aging & Longevity

Speakers: Leading experts including Prof. Dr. Nir Barzilai, Prof.Dr. Maria A. Blasco, Dr. Aubrey de Grey, Prof. Dr. Steve Horvath & more

Conference Structure:

- **Day 1:** The beginnings – Historical breakthroughs in aging research
- **Day 2:** The present – Current scientific advancements and applications
- **Day 3:** The future – what comes next?

Organizers: [Miles solutions](#), [CodeCrew](#), [IGKKM](#), [GSAAM](#), [GFAF e.V.](#)

Mission statement

Short version

The Eureka Conference, where philosophy meets science, is an annual highly interactive event exploring groundbreaking scientific discoveries. In 2025, we will focus on aging and longevity—bringing together top experts to discuss the progress in longevity science as well as its societal, ethical and economical implications.

Full version

The Eureka Conference, where philosophy meets science, is an annual highly interactive event dedicated to exploring groundbreaking scientific discoveries across different fields. In 2025, the focus is on aging and longevity. The mission is to bridge the gap between cutting-edge science and society, fostering interdisciplinary discussions on how longevity research shapes the present and can shape the future. By bringing together leading scientists, philosophers, policymakers, and industry experts, we provide a platform for knowledge exchange and critical reflection on the societal, ethical and economical implications of scientific breakthroughs.

Short copy for social media

The **Eureka Conference 2025** is all about debating! This year's theme is **aging & longevity** and explores cutting-edge research on reversing the aging process and extending human healthspan. Join top experts at **Neues Schloss Stuttgart (Oct 10–12, 2025)** for a deep dive into one of the most exciting scientific fields of our time —engage with leading researchers, ask critical questions, and help shape the future of longevity science. Be a debater, debate with us!

The Eureka Conference, where philosophy meets science, is an annual highly interactive event dedicated to exploring groundbreaking scientific discoveries across different fields each year. In 2025, the focus is on aging and longevity. The mission is to bridge the gap between cutting-edge science and society, fostering interdisciplinary discussions on how longevity research shapes the present and can shape the future. By bringing together leading scientists, philosophers, policymakers, and industry experts, we provide a platform for knowledge exchange and critical reflection on the societal, ethical and economical implications of scientific breakthroughs.

At the heart of the conference are **9 world-class scientists**, who will present the essence of their groundbreaking discoveries—their "**Eureka Moments**"—in short, eye-opening talks. Accompanying them are **3 philosophers**, who will place these breakthroughs in a historical and societal context and lead **engaging, critical discussions with the audience**.

What do these discoveries mean for us as individuals? What do they mean for society? **Experience this first-hand and actively engage with top scientists** in critical discussions in an inspiring and welcoming setting.

The conference follows a **three-day structure**:

- **Day 1 – The beginnings:** How did we get here? A look at historical breakthroughs in longevity science
- **Day 2 – The present:** What is possible today?
- **Day 3 – The future:** What comes next?

The Neues Schloss Stuttgart provides an elegant and comfortable atmosphere, where guests can enjoy regional cuisine, mini classical concerts, and a stimulating exchange of ideas. This combination of science, philosophy, culture, and fine dining makes the Eureka Conference a truly unique experience.

Instructions on the usage of our logo

There are two versions of the logo:

- regular
- compact

We prefer using the regular version but both can be used in an equal capacity.

Logo should be placed on a light background. Logo should never be modified in any manner. Logo should not be transformed in a way that a part of it is stretched or obscured. Minimum height of the logo is 270 px for the regular version or 340px for the compact version. All elements of the logo should always be clearly visible and all text must be readable. You may use the logo both in digital and print formats.
